PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in web development through academic and practical projects. Experienced in building responsive frontend interfaces, implementing UX/UI designs, integrating APIs, and working with backend systems and databases. Interested in developing user-friendly web applications while continuously expanding technical skills across frontend and full-stack development.

EXPERIENCE

Frontend Developer Intern

4 Months
2025-2026
DEVSMITH 4289 CO., LTD.

Project: SP Auto Service

- Developed frontend interfaces based on UX/UI designs to support vehicle repair management workflows.
- Integrated APIs with backend services to retrieve and display application data.
- Implemented interactive features according to project requirements.
- Assisted with website development, including client landing pages and company content.
- Performed manual testing of vending machine systems.

PROJECTS

Development of a Community Waste Management

Thesis Project | Full-Stack Web Application

- Developed a web-based waste collection fee management system for a local government organization to streamline service requests, fee collection, and administrative operations.
- Implemented citizen-facing features through LINE LIFF, including service requests, request status tracking, fee information, payment history, and receipt access.
- Developed administrative functionalities for managing service records, reviewing requests, tracking payments, and handling collection data.
- Integrated LINE Login, LINE Messaging API, Webhook, and Thunder Solution API to support authentication, notifications, and payment slip verification.

Technologies: React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, LINE LIFF, REST APIs

Shabu Restaurant Reservation System

Academic Group Project | Web Application

A web application that enables customers to reserve tables, order food, and make payments through mobile devices.

- Gathered and analyzed user requirements to understand user needs, identify pain points, and define key system functionalities.
- Translated requirements into Use Case Diagrams to illustrate system workflows and user interactions.
- Assisted in designing UI layouts and developing selected frontend pages and components.
- Collaborated with team members to ensure the interface aligned with user requirements

Technologies & Tools: HTML, CSS, JavaScript, Figma, Miro, MySQL

TECHNICAL SKILLS

Programming Languages	HTML, CSS, JavaScript, TypeScript, Python, Java
Frameworks & Libraries	React, Tailwind CSS, Node.js, Express.js
Database	PostgreSQL, MySQL, Prisma ORM, Neon
Development Tools	Git, GitHub, Postman, Docker
Design & Modeling Tools	Figma, Miro, Draw.io, dbdiagram.io, Mermaid
Deployment & Hosting	Vercel, Render

EDUCATION

Bachelor of Science in Computer Science
Naresuan University
Graduated: 2026

AWARDS & CERTIFICATIONS

3rd Place – Cooperative Education Project
SCI Academic Expo 2026
Internship Completion Certificate
DEVSMITH 4289 CO., LTD.
